To whom it may concern,

Over the last 10 years or so, FAC has used ADG Architecture many times, from small campus improvements to major redevelopments and large additions. ADG has provided everything from concept development to construction documents. On some projects as requested, ADG has also provided full Construction administration services.

Some of our projects include:

- concept development of multi phase, multi year campus expansion
- conversion of several houses to offices, parking lot for offices
- new construction of 2,600 sqft, two floor storage facility
- conversion of 3,500 sqft to 'connection' living rooms
- redevelopment of 3,500 sqft for childrens ministries
- addition of 2,000 sqft bathrooms facility
- redevelopment of existing parking areas
- new construction of 9,000 sq Family Life Center
- site work, drainage for new FLC and parking lot
- full gym, full commercial gas kitchen and service areas

We found ADG to demonstrate a high level on competency and knowledge, as well as excellent character in working with our various teams, the sub contractors and the general contractor. ADG has demonstrated pride in it's work, and a genuine concern for us, and the projects we are doing, as a client.

We keep going back to ADG; that speaks for itself.

Respectfully,

A handwritten signature in blue ink, appearing to read 'Frank Fasulo'.

Frank Fasulo, FAC corporate officer and Governing Board member
