Telephone: 941-661-1175

Project: All America Pet Resorts, New Fort Myers Building

Overview: Our project consisted of the design of a new pet hotel which is located near the Fort Myers regional airport. Our new facility contains a reception area, office, pet kennel suites, common areas and indoor and outdoor pet exercise areas. Additionally, ADG Architecture assisted us in developing our construction standards for our franchise company that will be used for future franchisee projects. Subsequently, we implemented these standards in the design of our new Fort Myers facility. Working very closely with our contractor, ADG Architecture was able to provide us a facility that is state of the art in the pet hotel market.

ADG Architecture knowledge and professionalism makes them the go-to firm of choice for architectural services and consultation.
